

# New Additions To M. D. I. Dairies' Herd

Constant additions are being made to increase the quality of the Mount Desert Island Dairies herds, by Mr. P. H. Kief and Mr. H. C. Sweet, president and treasurer respectively of the Dairies. Mr. Kief has not lost interest in the progress and building of his herd though he has had a great deal of trouble in getting around since the accident last year which kept him in bed for so much of the time. Mr. Kief is an example of what a man can do, if the will to do in spite of great misfortune, is strong enough.

The Mount Desert Island Dairies is to be congratulated on doing everything possible to assure its customers of only the best in dairy products.
